

**CZAR SOUGHT ADVICE  
FROM KAISER ON  
ADDICTING THAONE**

London, July 26.—Interest in the Russian situation for the next few weeks will be no means lessened, it is probable, that developments will occur, perhaps within a few days, which will be of great historical importance and which will affect the whole present aspect of events. There are two or three different points of view. For instance, at the Moscow conference, one view is to force the present government to grant reforms, in order to avert a revolution, and another is to force the present government to grant reforms, in order to avert a revolution, and another is to force the present government to grant reforms, in order to avert a revolution.

Again, we are told that the authorities have discovered a vast plot for destroying the Czar and all the reactionary leaders. There is another element in the situation, however, of which no knowledge has yet reached the public. It has been assumed that the court party has no program of any forcible repression of all attempts to restrict the Czar's authority, but the reality that the emperor's vast power has created a situation which requires substantial concessions to popular demands, and a certain amount of genuine reform, and above all, a genuine change of attitude at the court.

It is hoped that a real change of attitude at the court is in the most realistic mood. This has been shown by an increase in the number of members of the royal family sent to the front, and by the fact that the emperor has been seen in the trenches, and by the fact that the emperor has been seen in the trenches, and by the fact that the emperor has been seen in the trenches.

There is a strong party opinion that the Czar's attitude will have a great effect on the Russian situation. The Czar's attitude will have a great effect on the Russian situation. **YUKON WILL NOT  
JOIN WITH PROVINCE  
OF BRITISH COLUMBIA**

Man, W.W.B. McLean, the new governor of the Yukon, has made it plain to the people of the Yukon district. In his first address he pointed out the fact that the Yukon is not a part of the Dominion Government, and that the Dominion Government did not seriously consider such a policy.

There is a better thing than that should be done to this country, and that is to develop it as a separate entity. We can develop it as a separate entity, and we can do so in a way that will be of benefit to the Dominion Government.
